AX-400DA Evolutionary Amplification

Like its bigger brother, the AX-400DA has been re-engineered from the ground up and includes many of the features found in the AX-800DAV.

The 4 powered zones deliver the same 50 watts per speaker that all Axium owners have come to appreciate. With 6 sources and the added functionality of being able to be stacked with the AX-800DAV expansion is now even more affordable.

Of course there is USB, RS232 and Ethernet connectivity, routed IR outputs, 2 lit doorbell compatible input triggers, amp on's, individual keypad connections, a legacy keypad connector and an amplifier expansion port offering unrivalled connectivity up to 96 Zones.

The internal webpage has unique customisation allowing IR commands to be attached to buttons for source control from the webpage. Add an AX-400DA to a legacy 452/4750 Axium system and enjoy tablet and phone control of all the zones from the browser.

With adjustable input levels, more presets, wider zone linking, 2 doorbell inputs for stored music with more memory for longer playback, massively improved standby and operational efficiencies and a significant refinement in sound quality, like the AX-800DAV the AX-400DA is an evolutionary leap forward.

There are no more excuses.
Prepare to be spellbound in every room.....

Features and Benefits

- o 50 Watts per channel 8 ohm -4 ohm capable
- o Output short cct, thermal and hard clipping protection
- o Analogue input level gain adjustment
- o 4 zones
- o Bass, Treble, Balance Loudness adjustments per zone
- o 6 Sources,
 - 1 - 3 either Analogue, or Coax Digital Audio (PCM)
 - 4 - 6 Coax Digital Audio (PCM)
- o Storage for up to 10 seconds of 44.1 KHz 16 Bit stereo
- o 8 Buffered IR outputs.
- o Internal real time clock
- o Internal Web Page
- o Extensive zone linking
- o Backward compatible to previous generation systems
- o USB, RS232 and Ethernet interface
- o 14 amplifier presets, two page presets
- o AMP-ON status: 12VDC Outputs
- o Setup lockout
- o Static/DHCP network connections
- o Power Supply 90 – 240VAC 50/60 HZ
- o Power Consumption 320WRMS
- o Standby Power 6W
- o Dimensions 435 x 90 x 390 mm
- o Height including feet 105mm
- o Weight 10Kg
- o Specifications, features subject to change without notice
- o Please check www.axium.co.nz for latest updates
