Wireless

rako

WHAT IS IT ?

Designed to operate with the Rako RASOFT PC programming software.

The unit provides a wireless link from a PC running RASOFT to Rakom enabled receiver devices such as the RDL range of dimmers.

The RAUSB is a USB to RF interface for the RASOFT PC software suite

FLEXIBLE CONTROL

The RAUSB module allows a computer running the RASOFT programming software to communicate with Rakom wireless devices.

A free USB port is required.
